

INTERNATIONAL HCM SUMMIT

8

Real-World Considerations for the Contemporary Management of Hypertrophic Cardiomyopathy

October 25-27, 2024
SEAPORT HOTEL | BOSTON, MA, USA

The International HCM Summit is the definitive global scientific meeting on hypertrophic cardiomyopathy.

For close to thirty years, we have offered attendees the opportunity to learn the clinical, morphologic, and genetic spectrum of hypertrophic cardiomyopathy from a renowned international faculty.

Our program explores a detailed contemporary view of HCM in which improved diagnostic techniques and management strategies have reduced disease mortality and vastly improved thousands of patients' lives.

BACK TO BOSTON

It is our pleasure to invite you back to the vibrant city of Boston. If your travel allows, we highly recommend immersing yourself in the historic charm and rich heritage this extraordinary city offers.

ACCREDITATION

In support of improving patient care, this activity has been planned and implemented by Ciné Med and Lahey Clinic, Inc. for ACCME, ACPE, and ANCC continuing medical education (CME) credits.
